RECREATIONAL PRODUCTS LTD.

MULTI TRAILER

DESCRIPTION

The Marlon New Product developed a trailer to do more and to be Multiseasonal. The development code name was: MultiFunctional.

We wanted it lite so it can be towed behind a selection of vehicles to haul your sled, ATV, Trail SxS, or stack of wood. That's why it is all aluminum, including the decking.

But we wanted more... And we wanted to be the best and to grow the declining sled trailer business so we kept this in mind and looked for things we could do from the ground up. We used our experiences and knowledge from 20+ years in the sled deck industry and adapted the slide-out sides to work on our 10' and 12' Multifunctional two-place trailers.

Tilt the trailer or drive on back off - it's your call! Our trailer does both!

Drive confident through a thunderstorm - there is no plywood stretching because it has become wet or straps coming loose. All aluminum decking adds pure strength to the trailer. Our MultiFunctional trailer has been designed for all seasons to meet your needs. Ideal for your current and future toys!

"We build products that are safe, smart, and secure!"

#ThisIsTheMarlonWay

The Marlon roots extend 50 years as a distributor of recreational products for adventurers in Canada's West Coast.

As we matured in the marketplace, we identified a need to not only expand our offerings of recreational trailers and related accessories, but also innovate our own products to help address the specific needs of a growing customer-base in Canada and the USA.

We're all about getting the job done, and having a good time doing it.

From truck decks, boats, and trailers, to power equipment, snow removal, and much more, we design with family in mind, reliability in our products, and commitment to your safety. Help us redefine what it means to

Work Hard, Play Hard, and Ger 'er Done.
