SXS DECK

FEATURES

Transform your off-road adventures with the Marlon SXS Deck—engineered to fit truck boxes from 6.2' to 8'. This innovative deck comes with two 10' ramps (with 3" wide walls) and a side load and unload assist, making it the ultimate solution for easy loading and unloading of your Side-by-Side or ATV. Conquer rugged terrain and explore remote trails with confidence, all while having the flexibility to carry an additional machine or tow your trailer.

The standard deck carries machines up to 120" long from the front of the front tire to the rear of the rear hub. An optional extension was designed for larger machines, extending out from the front of the deck. This extension can accommodate a machine up to 165 inches from the front of the front tire to the rear of the rear hub. With an outside width of 76 inches, our deck fits all factory SXS's, while an inside width of 50 inches accommodates all the trail machines on the market today.

Enhance your Marlon SXS Deck with our new optional toolboxes for secure, spacious storage that maximizes your truck bed space! Sold as a set, you'll have one box per side, these durable, powder-coated aluminium boxes install effortlessly with just five bolts. Each toolbox features a lockable door and a watertight seal, ensuring your gear stays dry. Plus, the open design offers ample room for long materials or larger equipment. Available in both long (310-0107) and short (310-0108) versions, our toolboxes fit perfectly in trucks with box sizes from 6.2' to 8'.

ThisIsTheMarlonWay

The Marlon roots extend 50 years as a distributor of recreational products for adventurers in Canada's West Coast.

As we matured in the marketplace, we identified a need to not only expand our offerings of recreational trailers and related accessories, but also innovate our own products to help address the specific needs of a growing customer-base in Canada and the USA.

We're all about getting the job done, and having a good time doing it. From truck decks, boats, and trailers, to power equipment, snow removal, and much more, we design with family in mind, reliability in our products, and commitment to your safety. Help us redefine what it means to

Work Hard, Play Hard, and Ger 'er Done.
